

# CourtLink® **USE COURT RECORDS**

IN A WHOLE NEW WAY

*Corporate Counsel around the country are using court records to identify legal risks...and manage law firms more effectively.*

LexisNexis™ CourtLink® helps Corporate Counsel develop Strategic Profiles of litigants, attorneys, law firms, clients and competitors.

Pinpoint exactly the information needed from the only provider that allows you to search the most in-depth court records by names, case types and docket numbers.

### **Identify legal risks and manage law firms more effectively.**

CourtLink® helps Corporate Counsel identify legal risks to their business and respond to those risks in a more informed and timely fashion. Plus, by developing strategic profiles of attorney and law firm experience and success, they are able to better manage and select legal counsel.

Use court records to gain new insight into litigants' case histories and law firm experience and success. Three targeted Strategic Profiles can be developed from important court record information using the CourtLink service.

- ✓ **LITIGANT PROFILE:** Reveal litigation history and trends to reveal patterns in business practices, settlement and mediation by an individual or organization.
- ✓ **COUNSEL PROFILE:** Uncover experience and success in a nature of suit, as well as previous legal strategy.
- ✓ **MARKET PROFILE:** Assess market and litigation trends that could represent threats or opportunities to your organization.

### **Be first to know about case developments.**

CourtLink can alert you to new opportunities or threats involving litigation of interest to you.

Set up an Alert to be the first to know about newly filed cases involving a client, vendor, or business partner...usually before they know. Or monitor your active case load or outside counsel's progress in an existing case using Track. You'll learn critical information before it could impact your profits or stock price.

### **Go beyond the dockets to documents.**

To develop the most comprehensive Strategic Profile, go behind the case by ordering documents (motions, pleadings, etc.). You can now order all of your Federal and state dockets and documents through CourtLink...whether they are available online or through our new document retrieval service.

*Plus, you can receive one invoice each month for all of your online and document retrieval transactions!*

We offer complimentary, customized consultations to show you how the CourtLink service can work for your organization. For more information, contact a LexisNexis CourtLink representative toll-free at **1.866.281.1846.**
